TMY CORPORATION
since 1947

Exploring the relationship between vehicles and society

The car is now recognized as a fundamental factor in modern day life; vehicles are now essential for human development as well as transport.

This has created a dependant relationship with the motor vehicle; TMY Corporation has been involved with this relationship for over 75 years and will continually offer its support as a trusted company.

Now, many things are changing, individuals and nations are coming to terms with the positive and negative impact of this dependency.

We are committed to finding solutions to the changing needs of the automotive industry as it adapts to the continual demands society is placing upon it.

O. Aoki
Chairman
Otohiko AOKI

M. HAJI
President

Our focus on the automotive market

TMY Corporation was established in 1947, initially dealing with automotive leaf springs and steel materials.

Since then a lot has changed, we now specialize in automotive components and related products, supported by the highest standards of information and technological innovation.

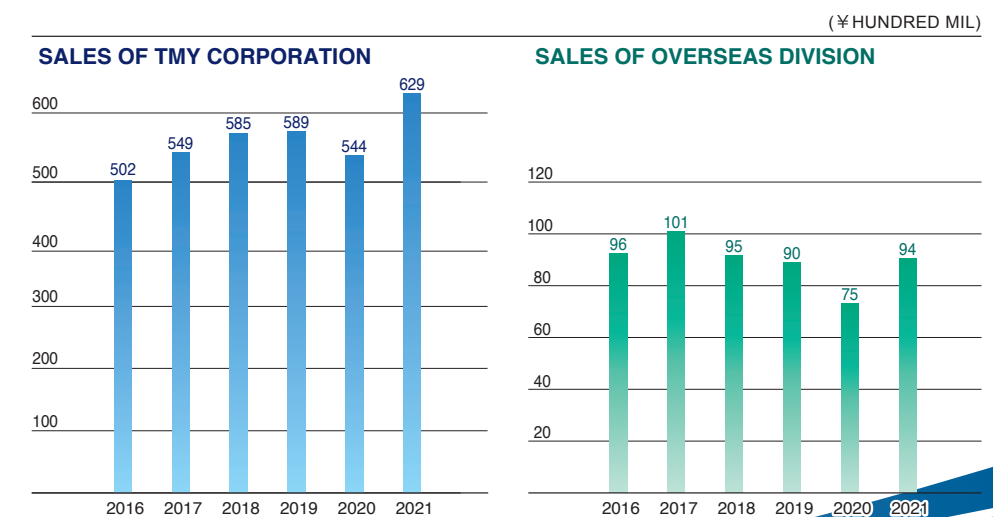

Today TMY Corporation holds an internationally respected place in its field and will always endeavour to improve and deal with the challenges to become the ideal company, which is our major goal for the future.

As the world continues to develop, borders and barriers dissolve and our opportunities increase, meaning we will have to harness our considerable sources of information to effectively realize those expanding opportunities.

Our three aims for the future

- 1 To continue focusing the special supply company for automotive components and to create solutions to our customers' needs.
- 2 To draw on our wealth of knowledge and experience to continually improve our technical knowledge to benefit our customers.
- 3 To encourage the harmonious relationship between human and machine in our maturing 'Motorised Society'.

TMY TOTAL VALUE

OVERSEAS DIVISION

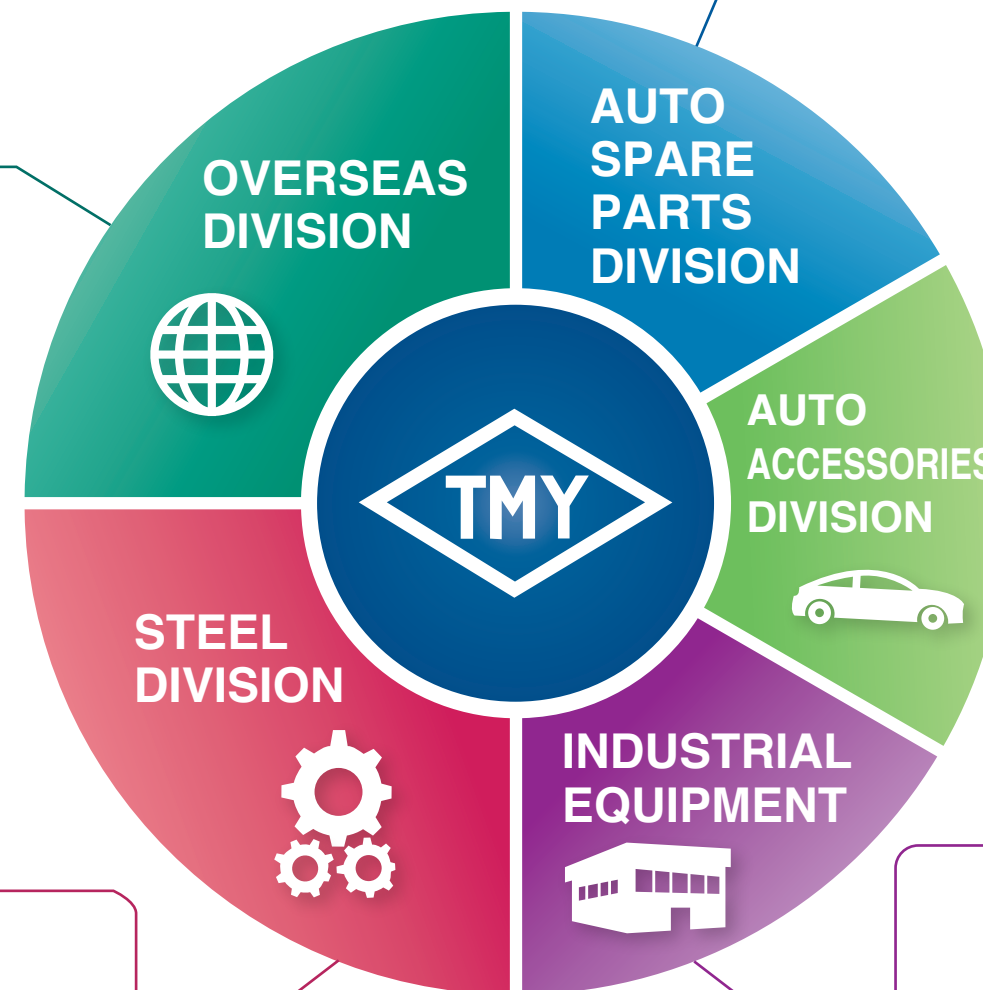

We provide car parts for Japanese vehicles to countries all over the world. Our strength is our wide range of items and our many years of experience in exporting across the world.

We have local subsidiaries in Singapore, Shanghai, Dubai Dusseldorf, and Vladivostok. We are regular member of JAPA. (JAPA ... JAPAN AUTOMOTIVE PRODUCTS ASSOCIATION)

STEEL DIVISION

STEEL DIVISION supplies Special Steel and Stainless Steel to component manufactures, we also export to the countries where our special steel is needed. We have joint venture "KDI" in Indonesia.

AUTO SPARE PARTS DIVISION

We have 24 branches in Japan, and distribute parts to the domestic markets. Each branch has various items and enough stock to meet the customer's demand.

AUTO ACCESSORIES DIVISION

We have Private Sports Brand "RG" and "SR", and participate in various motor events.

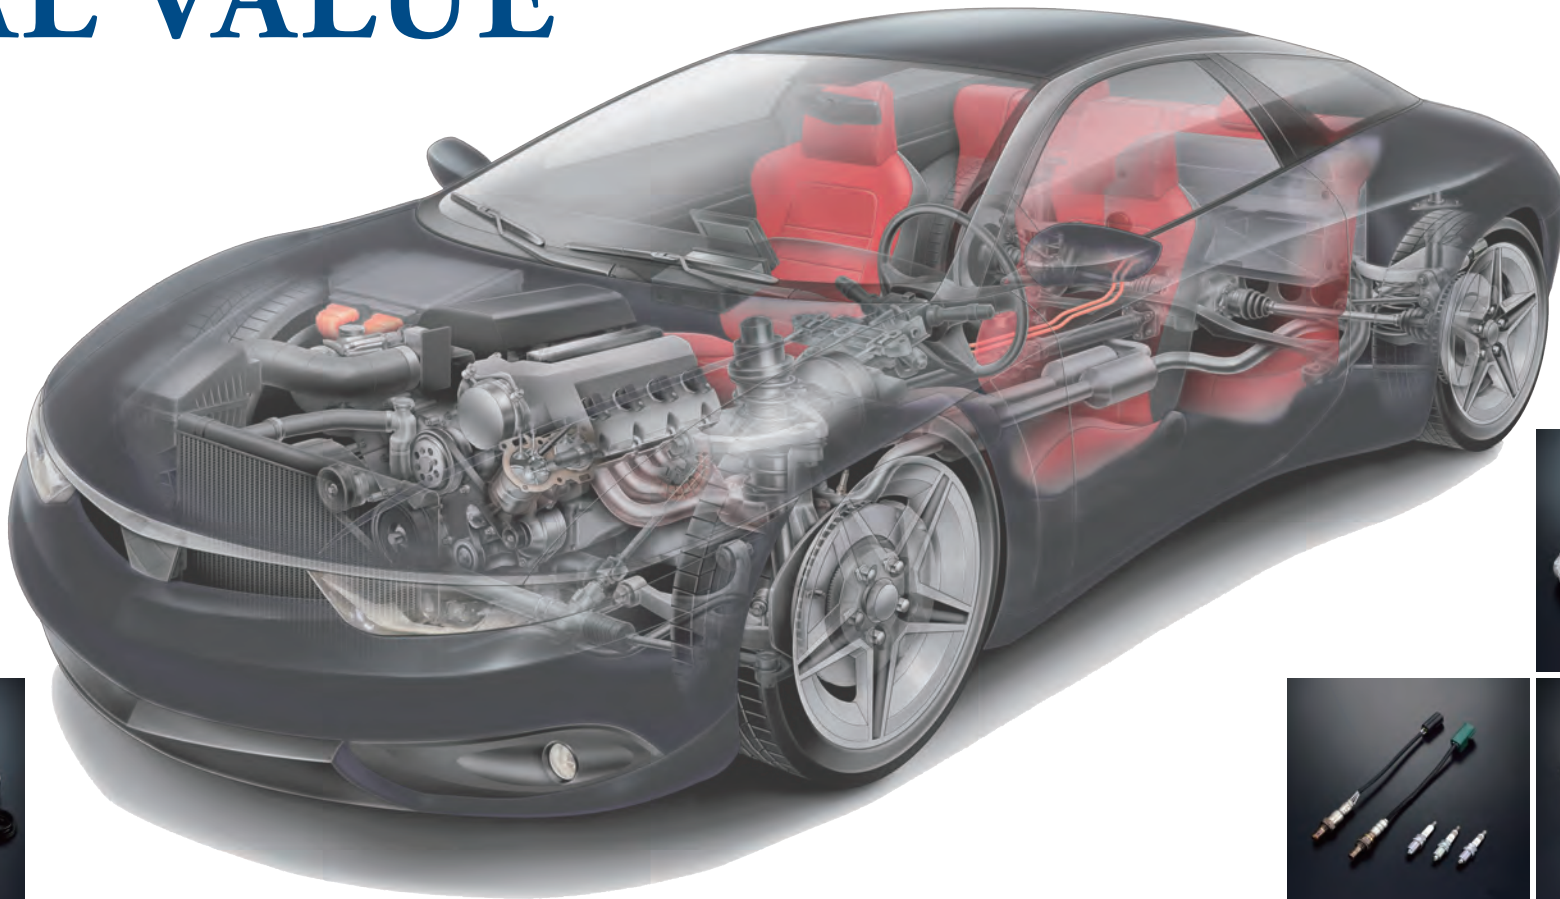

INDUSTRIAL EQUIPMENT (Tatsumi Shoji Co., Ltd.)

Tatsumi Shoji Co., Ltd. provides various types of machine tools and overhaul Components to major manufactures. The Toyota Branch has ISO14001.
